

Students with federal and/or private education loans as documented by the financial aid certification form, will be a part of the USLI College Help Qualified Educational Assistance Plan. In addition to their hourly wage, these students will earn \$3.25 per hour worked satisfactorily in the form of a qualified educational assistance grant, up to \$5,250 each calendar year. This money is exempt from federal income tax and federal withholdings when applied to qualified educational expenses. State and local taxes still apply and will be withheld for the student by USLI's Accounting Team. The grant must be used to limit or reduce federal and/or private education loans by application to tuition, fees or loan balances. The grant cannot be applied to room and board, or any other type of meal plan, transportation costs or living expenses.

USLI's College Help Program Coordinator will communicate with the financial aid office at the respective college or university on behalf of the student. Additional information about the plan will be provided once the student is offered the job.
