Claim Examples:

Property: An insured was having an office building renovated to lease out space. Before renovations were completed, a severe storm hit the area. Lightning struck the building, requiring repairs to the partially installed phone and electrical systems.

Liability: A new tenant within a three-story building was renovating his space prior to opening for business. A general contractor hired by the tenant left oily rags on the premises over the weekend; these rags started a fire that caused severe water and smoke damages to the building and to the property of the surrounding tenants. Though the general contractor was responsible for the loss, his general liability coverage had lapsed, which required the tenant's policy to respond, since he had hired the general contractor. The incurred loss totaled \$110,000.

- Unsurpassed service with a sense of urgency and care
- Same day or next business morning claims acknowledgement
- Policyholders have access to many free and discounted services through our Business Resource Center that will assist in growing and protecting their business
